

Control Works, Inc.

“Working With People To Apply Technology”

Control Works Process Experience:

- Cryogenic Gas Processing (Demethanizer with expander/compressor/J-T controls),
- Fractionation Trains,
- Amine Systems,
- Glycol Systems,
- Dehydration Sequence,
- Refrigeration Systems,
- Hot Oil Heater/Waste Heat Recovery Systems,
- Boiler Controls,
- Thermaloxidizer Controls,
- FCCU,
- Crude Units,
- NHT,
- CCR,
- Delayed Coker,
- Polymerization,
- Visbreaker,
- Air Liquid Products Plants,
- Chemical Reactors.

Our Control System Experience Has Been:

- RS3,
- Delta V,
- Honeywell TDC3000,
- Fischer & Porter DCI Six,
- Fisher Provox,
- Foxboro I/A,
- Triconix,
- Omni Flow Computers,
- GE Fanuc,
- Square D,
- Allen Bradley PLCs,
- Modicon,
- Triguard ESD,
- Wonderware Intouch
- Daniel Flow And Chromatographs.
